

LINCOLN PEDIATRIC DENTISTRY

Brushing Chart for:

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday

ORAL HYGIENE INSTRUCTIONS

- Brush teeth after breakfast and before bedtime with adult supervision until at least age 8.
- From ages 5-9, 12 permanent teeth will erupt. This is why it is important to establish good brushing habits.
- Use a pea size amount of toothpaste to remove plaque from teeth.
- Brush in tiny circles to help clean your teeth and gums.
- Gently brush your tongue and the roof of your mouth.
- Mark the brushing calendar to establish a routine.
- Brush and floss daily.

Ages 5-9 Dental Report Card

Permanent Teeth Eruption Chart

Eruption pattern varies for all children

Recommendations are highlighted:

- Avoid sticky candy, fruit snacks, raisins, pop, juice, and Gatorade to prevent cavities and establish healthy eating habits.
- When baby teeth are loose, wiggle them out to allow permanent teeth to erupt.
- If taking vitamins, choose hard chewable or liquid vitamins instead of gummy vitamins.
- Use adult toothpaste.
- Use a timer for 2 minutes of brushing.
- Use a Sonicare® toothbrush.
- Use a WaterPik® water flosser.
- Sealants are recommended.
- Referral to orthodontist.
- If you chew gum, choose sugar-free gum.
- A mouthguard is recommended for sports.
